

Amendments to the Specification

Please amend the paragraph beginning at page 31, line 5 as follows:

-- Figure 14A is an exemplary user interface for controlling IM applications in accordance with one embodiment of the present invention. A computer monitor screen 1400 is shown, containing a history window 1402. History window 1402 is similar to the history window 302 illustrated and discussed above in connection with Figure 3. Within history window ~~[[302]]~~ 1402, browser control elements and features are shown. For example, in the embodiment shown several framed areas are provided. In the embodiment shown, several I-frames are provided including a conversation area 1404, content window 1406, a link frame 1408 and an application area 1410. --
